

<u>Describe sampling techniques</u>	<u>Advantages</u>	<u>Disadvantages</u>
<u>Random sampling</u>		
<u>Systematic Sampling</u>		
<u>Stratified sampling</u>		
<u>Opportunistic Sampling</u>		

How did we investigate change over time and mitigating risk	Investigating the use of qualitative surveys in fieldwork	
I investigated.. I proved that	What is the difference between qualitative and quantitative fieldwork? Qualitative means Quantitative means	
	Advantages	Disadvantages
Field sketches		
Likert surveys		
Presenting data – one method we used to present data was an annotated field sketch. What is an annotated field sketch? Strengths of this method Weakness of this method		
What is the difference between primary and secondary data? Primary data Secondary data	Secondary data – one method we used to collect secondary data was the internet Strengths of this method Weakness of this method	
We investigated mitigating risk in Apperley Bridge	What is Egan’s Wheel?	
What does mitigating risk mean? Did we find mitigating risk	1. 2. 3.
